

A bicycle is a vehicle.

A cyclist has the responsibility to:

- ☑ Stop at red lights
- ☑ Yield right-of-way to vehicles and pedestrians when entering main roads
- ☑ Use appropriate hand signals when turning
- ☑ Ride on the road in the same direction as traffic
- ☑ At night, a bicycle must have lights visible from 300 feet in the front and 200 feet in the rear
- ☑ No child under the age of 16 years is permitted to ride on a bicycle without a helmet properly in place
- ☑ All traffic laws apply to bicyclists

Motorist responsibilities when encountering bicycles:

- ☑ Look for bicyclists before turning and before opening doors.
- ☑ Do not overtake a bicyclist before making a right turn. Instead, slow down, merge, and then turn.
- ☑ Do not assume that a bicyclist will ride as far to the right as possible. Good cyclists ride about three feet from the edge of the road, which makes them more visible to motorists and gives them space to maneuver around road hazards.
- ☑ Allow bicyclists to enter your lane to make a left turn.
- ☑ Remember that bicycles are vehicles and are allowed to ride on the roads.
- ☑ Do not drive or park in bike lanes. You may, however, cross them when turning or exiting a legally assigned parking space.
